LOCAL ITEMS

Another Attempt was made last night by Inventor Prentice A. Newman to make a trial flight in his aeroplane, but like the two previous attempts of yesterday proved futile. About ten thirty o'clock Mr. Newman announced that all was ready and getting into the machine started his engines to working. The engines were in perfect working order and the machine started down the road at the rate of at least forty miles an hour. On account of the extreme speed Mr. Newman was unable to see very clearly, and just as the aeroplane started to leave the ground and soar into the air it struck some brush on the road side, breaking one of the propellers, and thus brought to an end what might have been a successful flight. Besides the breaking of the propeller no damage was done to the machine and Inventor Newman expects to make another trial flight within a day or so.

In endeavoring to see just how much oil remained in a tank car on the siding of the St. L., B. & M. Railroad belonging to the Indiana Co-operative Canal Company which was being unloaded last night, Nason Duenas who was engaged in pumping the oil out of the car, struck a match and peered into the oil tank with the result that the gas which had formed in it exploded with a loud report, blowing the pipe out of the tank and badly burning Duenas about the face and arms. Medical aid was summoned and dressed the burns of the wounded man, which although painful are not regarded as serious. No damage was done as the result of the explosion.

In the issue of Leslie's Weekly of October 28th appears a short article on the career of Lon C. Hill, founder and promoter of the thriving town of Harlingen. A very good cut of Mr. Hill also appears in connection with the article. H. Magill, the genial and hustling proprietor of the Texas Confectionery, has marked the article about Mr. Hill with a blue pencil and has placed it in front of his place of business where it can be read by any who desire to read it.

There will be no services at the Methodist church tomorrow, as the members of that congregation have accepted the invitation extended them by Rev. L. R. Burress, pastor of the Baptist church, to join the members of the Baptist congregation in their services. The subject of Rev. Burress' discourse tomorrow will be "Christianity the Hope of Greater Texas." This subject which Rev. Burress was to have discussed last Sunday, the topic being postponed, however, in order that the members of his congregation might hear Dr. Murray, of Louisville, who conducted services at the Methodist church. Rev. Burress is desirous that many people may join them in their worship tomorrow, and is also the last week of the convention year of the Baptist church.

A marriage license was today issued to Miguel Aleman and Ramona Hernandez.

W. Amthor. The minutes of the meeting were also approved.

Marcos Rodriguez was arrested last night for creating consternation in the suburbs of the city by going to the home of Virginia Mesa about eight o'clock and when refused admission into the house, proceeded to force an entrance by bursting in the door and assaulted her by kicking her and biting one of her fingers. Officers Leal and Dominguez arrested the would be bad man, who by the way is quite a familiar character in both the recorder's and justice's court. This morning when tried in the recorder's court before his honor Mayor Combe, Rodriguez was given a fine of five dollars and costs, amounting in all to something over \$15, and being unable to pay his fine Rodriguez will exercise his talents in beautifying the streets of the city for several days.

District court is taking a recess today, there having been no business transacted by it since yesterday morning.

NEW CITY ORDINANCES.

To Be Presented to the City Council for Adoption at Next Meeting.

An automobile ordinance, a fire limit ordinance, and a new market house ordinance have been prepared by Assistant City Attorney Judge A. L. Hudson, and will be presented to the city council for adoption at the next meeting of that honorable body, which will in all probability be on Monday afternoon.

In speaking of these ordinances Judge Hudson stated that the speed limit for automobiles would be regulated at six miles per hour in the business portion of the city, and eight miles per hour in the residence section.

The fire ordinance as drawn up places the southern boundary of the fire limits at Fourteenth street, the northern boundary at Tenth street, the eastern boundary the center of Levee street, and the western boundary as Adams street. It is the purpose of this ordinance to restrict future buildings to be erected in this district, which is the principal business section of the city, to brick, stone, or concrete.

FULL HOUSE AT LA FERIA.

Hotel Draws Two and Three to Fill—Building Arroyo Bridge.

"Our little hotel has certainly been doing business since its opening last Monday," said W. A. McNeil of La FERIA this morning. "I know because I tried to get a room there last Wednesday night and had to be content with a cot in the dining room. The building is not quite finished yet but will be in about another week. Then, we will have a formal opening to which all our friends will be invited."

Land-selling goes merrily on at La FERIA, Mr. McNeil said. Several good deals having been closed lately, among them one for 80 acres to J. T. Reynolds of Minneapolis for \$125 per acre. This shows one man's confidence in the valley for Mr. Reynolds arrived here shortly after the flood and went up to look at some land that had been under water just as soon as the wetness disappeared.

During his visit to Houston last week Mr. McNeil completed the purchase of piles for the steel bridge across the arroyo, 1 1/2 miles south of La FERIA and 3 miles north of the military road which is now under construction by the La FERIA Co. Some of the piles for the abutments are already in place. In all, thirty eight splinters, each fifty feet in length will be used on which will rest the eighty-five foot span. This bridge will cost \$3,500 and will be the only one crossing the arroyo at grade.

MASURY

The name Masury means something. It designates QUALITY. Just as the word Sterling stamped on silver indicates fineness and purity, the word MASURY means the best—none other as good. It has taken fifty years' experience to level up the standard of the Masury Paints to the high level where it stands today—absolutely pure pigments; pure linseed oil—net weights and full measure; every can labeled, giving actual percentage composition, etc.
